

Pack your bag: Scavenger Hunt!

Hi there, come with me on a mini mission. Look around the museum for things that might help you and tick the boxes when you complete each challenge.

4. Weather

The weather can change quickly and it could be very hot in the day and very cold at night. In the space below, write down something that might keep you cool and something that would keep you warm.

..... &

Phew, we made it. Well done!

1. Uniform

You will need a uniform that helps to keep you hidden while we are on our mission. This one doesn't have any camouflage yet. Can you add a pattern inspired by the uniforms you can see around the museum?

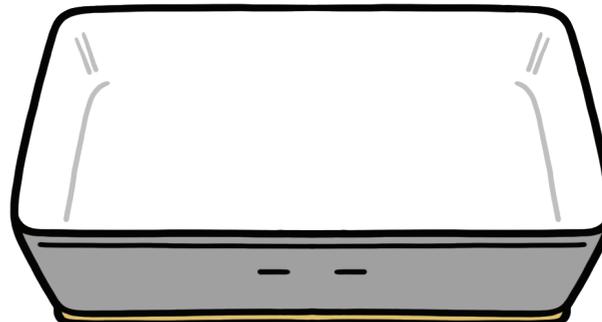

2. Equipment

You are going on a long march and we will be camping overnight. Look around the museum for things that will be useful and write down what you find inside the big bag.

3. Rations

If you get lost you may need some emergency rations to eat until you are found. Fill your small ration tin with some food to nibble on that can last you a day or two.

5. Mascot

Some regiments in the Army have animal mascots that represent them. Do you have a favourite animal? Draw your own mascot here.
